PRE-PRIMARY MUSIC EDUCATION THROUGH ARTS

PPME – is an early childhood development program to develop the senses and the kinetic energy. If you want to change our world into a better place for one; start to educate children in the pre-primary music education. We offer PPME in two (2) groups: age – 3 to 4 years, the first phase, then age – 5 to 6 years, the second phase.

**Together we can change the World.
Through educating that counts.**
